

+ TANAGER OPEN DATA COMPETITION TERMS AND CONDITIONS

Overview

Planet Labs PBC ("**Planet**") is pleased to announce a Tanager™ data competition (the "**Competition**"), which has been tailored for researchers, academics, and scientific experts to leverage data generated from Planet's Tanager satellite to develop innovative solutions to changing environmental issues. General information on the Competition can be found on the [Registration page](#).

Participation in the Competition is subject to these terms and conditions.

Registration

Persons and teams ("**Registrants**") interested in participation in the Competition must register online via the Competition website during Step 1 (described below). Registrants must provide, at a minimum, their name, contact information, and other information to support their application to qualify for the Competition. Information provided to Planet under this competition (including registration and Submission information) are subject to Planet's Privacy Policy, located at www.planet.com/privacy/.

Eligibility

The Competition is open to both individuals and teams, provided each Registrant must:

- Be at least 18 years old, or the age of majority in the jurisdiction where they reside, whichever is older
- Not be a current employee, or former employee in the prior twelve (12) months, of Planet Labs PBC or any subsidiary, or an immediate family or household member thereof.
- Meet all obligations required under the Compliance section below.
- Be permitted to participate under any applicable policies to Registrants by their employer or academic institution.

Competition Steps and Requirements

Step 1: Registration for the Competition

Registration will open on April 14 and remain open until the Submission Deadline indicated below. Interested persons will register at the [registration site](#). All registrants will be notified via email when their registration is complete.

Planet will review the information provided in the registration to verify the eligibility requirements provided above, as well as customary compliance review. Planet reserves the right to deny registration to any persons or teams at its reasonable discretion.

Step 2: Competition Submission

Registrants who have been notified of their completed registration will be considered “**Participants**” in the Competition. The Participants may begin working on their Submission at any time, but must submit their final entry by August 31, 2026 at 11:59 pm PST. Late Submissions will not be accepted, and incomplete Submissions will be disqualified. Submissions shall be submitted at the following link, after the Participants have registered: <https://www.surveymonkey.com/r/tanager-competition>.

Step 3: Final Evaluation

The judges will review all the complete Submissions and select the winning Submission.

Step 4: Winners Announced

The winning Submission(s) will be disclosed within one month of the Competition.

General Solution Requirements

Participants must agree to the following rules:

- Required components. Participants must utilize Tanager imagery from Planet's Open STAC catalog ([here](#)) as part of their Submission. Accepted formats include:
 - Short technical memos or project summaries (1–3 pages)
 - Well-annotated Jupyter notebooks or GitHub repos
 - Slide decks or infographics
 - Brief video walkthroughs (under three minutes)
- Optional components:
 - Links to code or notebooks in a public repository, including documentation, requirements, setup, and/or examples that demonstrates reproducibility
 - Links to data derivatives, hosted on [Zenodo](#) or another open data platform
 - Figures, maps, plots, or interactive maps
- Other technologies: You are allowed to use third-party code, libraries, SDKs, and APIs as long as these technologies comply with applicable law and the Participants have a license to use and distribute such third-party materials for this Competition.
- Number of submissions: Each Participant may only submit one Submission per Competition. However, if a Participant is providing a Submission as a member of a team, the Participant may also provide an individual submission.
- All materials related to the Submission must be in English.

Planet reserves the right to assess each Participant's eligibility and compliance with this Agreement at any point during the Competition, and exclude a Submission at its sole discretion.

Judging

Each Submission will be assigned to a minimum of three (3) independent judges from the cross-functional committee of Planet employees. If a judge has a conflict of interest, that judge will be recused from judging the entry with the conflict. An alternate judge will be identified as a substitution for the judge with the conflict.

The judges will evaluate the Submission according to the following judging criteria out of a total of 100 points. The individual scores for each Submission from each judge will be aggregated using the arithmetic mean of the three scores.

After all individual scoring is complete, the top ten (10) highest-ranked submissions will be presented to a full committee. Judges who rated a submission significantly higher or lower than the mean will be asked to explain their reasoning using their written justifications. The goal is to ensure all reviewers interpret the criteria consistently.

For submissions with very close final scores (e.g., within a three-point margin), the committee will engage in a final discussion based on the Tie-Breaker Points below.

Category	Max Points	Evaluation Criteria
1. Scientific Integrity and Innovation	30 Points	Integrity: Sound methodology, clear justification of assumptions, appropriate use of data, and an assessment of limitations. Innovation: Originality of the research question, novelty of the technical approach, and contribution to the field.
2. Application or Use Case	30 Points	Relevance/Impact: Addresses a clearly defined, high-value problem or use case. Feasibility: Demonstrates a practical path for how the results/tool could be implemented or used to inform real-world decisions.
3. Workflow and Tool Development	20 Points	Efficiency: Any code/workflow is clean, well-documented, reproducible, and efficient. Accessibility: Successful use of STAC metadata, development of open-source tools, or

		application of technologies that reduce the technical barrier to using Tanager data.
4. Visualization and Storytelling	20 Points	Clarity: Figures, maps, and plots are visually compelling, clearly labeled, and effectively communicate key findings. Narrative: The Project Summary and Impact Statement provide a cohesive, engaging narrative that demonstrates the significance of the results to a broad audience.
Total Core Score	100 Points	
Preference or Tie-Breaker Points (Up to 15 Points)	15 Points	+5 Points: Project aligns directly with Planet's key commercial verticals (e.g., agriculture, material identification) or strategic Impact areas (e.g., water quality, biodiversity). +5 Points: Submission includes a quantitative comparison/assessment of Tanager data performance against public alternatives (e.g., EMIT, PRISMA). +5 Points: Submission significantly contributes to open-source development (new library, major feature) or demonstrates a cutting-edge AI/ML application (e.g., model training, novel architecture).

Submissions may be subject to a due diligence review for eligibility and compliance with this Agreement or any other posted requirements. Determination of eligibility and compliance is at our sole discretion and may result in your disqualification. All judges' decisions are final.

Winners and Prizes

For a maximum of three (3) Submissions selected as winners of the Competition, the Participants will have the opportunity to unlock the power of global insight by earning a seat at the table with Planet's Open Committee.

As a winner, you'll directly influence the selection of thirty (30) Tanager images for release into Planet's Open STAC catalogue, ensuring the data that matters most to the winner's research becomes a public reality. This is a chance for winners to amplify the impact of their work on a global stage.

Planet reserves the right not to select winners of the Competition or to award a prize in the event of an insufficient number of eligible Submissions meeting the minimum judging criteria as determined in Planet's sole discretion. In addition, Planet reserves the right to award additional prizes or giveaways.

Final decisions with respect to what imagery is selected for Planet's Open STAC catalogue will remain in the full discretion of Planet's Open Committee, who shall have the right to refuse particular images, locations (AOI's), times (TOI's), or application of imagery intended for a particular use, at its sole discretion.

How Entries May Be Used By Planet

By submitting an entry, Participant hereby grants Planet an irrevocable, royalty-free, perpetual, worldwide rights and license to: (a) use, review, assess, test, and otherwise analyze the Submission and all its content in connection with the Competition; and (b) feature, display, or describe the Submission and its content for promotional purposes (including, but not limited to, in advertisements, press releases, presentations, and trade shows) in all media, now known or later developed. Participant also agrees to sign any necessary documentation that may be required for Planet to document the license granted hereunder.

In addition, Participant acknowledges that the public, non-confidential disclosure of the Submission to Planet under this Competition may adversely affect Participant's rights, including preclusion from Participant obtaining registered rights in a patentable invention, which may otherwise accrue in the

Submission.

Participant understands that no compensation or credit from Planet will be provided for the use of the Submission in connection with this Competition.

Please note that after the Competition, Participant and/or the Submission may be publicized in advertisements or other marketing materials related to the Competition. These advertisements may be distributed online and posted on Planet's website or third-party websites.

While Planet reserves the rights set forth above, Planet is not obligated to use any Submission for any purpose, even if selected as a winning Submission.

Privacy and Publicity

Information you submit to us when you participate in the Competition will be treated in accordance with Planet's Privacy Policy (www.planet.com/privacy).

Following the Competition, Planet may wish to create certain promotional materials which include information about the Participant's Submission, with filmed interviews with the Participant. In such circumstances, Participant's involvement in such interviews is voluntary, and if Participant wishes to be interviewed, Planet shall provide a media release agreement with the terms and conditions applicable to use of Participant's name and likeness.

Compliance

Participant's' conduct related to the Competition shall comply fully with all applicable laws and regulations, which may include, without limitation, the Foreign Corrupt Practices Act and other anti-corruption laws and regulations, economic sanctions administered by the U.S. Department of the Treasury, and export controls administered by the U.S. Department of Commerce, the U.S. Department of State, and other governments and governmental entities.

Participant acknowledges receipt of Planet's Statement of Ethical Principles (<https://www.planet.com/ethics/> or successor URL).

Representations and Warranties

By registering for or by submitting materials to this Competition, Participant represents and warrants that: (1) Use of Planet's Open STAC imagery will comply with the Creative Commons license applicable to such imagery; (2) the Submission does not violate the rights — including, but not limited to, patents, copyrights, trademark rights, trade secrets, confidentiality obligations, or other intellectual property or proprietary rights — of any third party; (3) the Submission entry does not violate any applicable laws or regulations; (4) Participant shall comply with the terms and conditions of this Agreement; (5) Participant has secured all rights necessary from any third party to provide Planet with the Submission.

Disqualification and suspension

Planet has the right to cancel or suspend the Competition with or without notice and for any or no reason, and Planet is not responsible for any damage or inconvenience caused by a cancellation or suspension of the Competition.

Planet may immediately disqualify any Registrant or Participant, if Planet determines, in its sole discretion, that the Registrant or Participant:

- Breached this Agreement or the applicable Creative Commons license associated with the Tanager Open STAC data;
- Provided a Submission that is offensive or otherwise unlawful;
- Violated third-party rights with their Submission; or
- Interfered with another Registrant or Participant's Submission or ability to participate in the Competition.

Licensing and Intellectual Property Rights

Except for the License described above ("How Entries May Be Used By Planet") Planet shall not claim or receive any other license or intellectual property right from the Participant under this Competition. To the extent that Participant's Submission includes or relies upon the Tanager Open

STAC data, Planet retains all title and rights to the Tanager Open STAC data, and Participant does not receive any other license or ownership rights other than the license provided with the applicable Tanager Open STAC data.

Miscellaneous

Choice of Law. This Agreement will be governed by and construed in accordance with the laws of California, exclusive of its conflict of laws provisions.

Limitation of Liability. NOTWITHSTANDING ANYTHING IN THIS AGREEMENT TO THE CONTRARY, PLANET SHALL NOT BE RESPONSIBLE OR LIABLE WITH RESPECT TO ANY SUBJECT MATTER OF THIS AGREEMENT OR TERMS AND CONDITIONS RELATED HERETO UNDER ANY CONTRACT, NEGLIGENCE, STRICT LIABILITY OR OTHER THEORY FOR (A) LOSS OR INACCURACY OF DATA OR COST OF PROCUREMENT OF SUBSTITUTE GOODS, SERVICES OR TECHNOLOGY; OR (B) ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES INCLUDING, BUT NOT LIMITED TO, LOSS OF REVENUES AND LOSS OF PROFITS.

Warranty Disclaimer. PLANET EXPRESSLY DISCLAIMS ALL WARRANTIES WHETHER EXPRESS, IMPLIED, OR STATUTORY, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR USE, TITLE, NON-INFRINGEMENT, ACCURACY, UNINTERRUPTED OR ERROR-FREE PERFORMANCE, OR SECURITY. PARTICIPANT ACKNOWLEDGES THAT IT HAS NOT RELIED ON ANY REPRESENTATIONS OR WARRANTIES OTHER THAN AS SET FORTH IN THIS AGREEMENT.

Modification. Planet may modify any provision of this Agreement, at any time, by publishing the updated version of this Agreement to the Submission webpage. The published version of this Agreement at the time of Submission shall control and govern Participant's rights and obligations under the Competition.

Withdrawal. Any Participant shall have the right to withdraw from the Competition at any time, by providing notice to Planet at [EMAIL]. Should Participant withdraw after their Submission has been provided to Planet, but prior to Final Evaluation, Planet agrees that such Submission will be deleted and the license granted to Planet to such Submission shall terminate. If Participant withdraws after Final Evaluation, the license granted to Planet hereunder shall continue in perpetuity.

Entire Agreement. This Agreement represents the entire agreement between Planet and

Participant with respect to the Competition and supersedes any and all prior understanding, agreements, or representations by or among the parties, written or oral, related to the subject matter as set forth herein.

Severability. If for any reason any provision of this Agreement is adjudicated to be unenforceable, that provision of the Agreement will be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remainder of this Agreement will continue in full force and effect.

Questions and Further Enquiries

For any feedback, questions or enquiries regarding the Competition, Participant can contact Planet at hyperspectral@planet.com.
